

Aether Platform

The **innovative and integrated platform**
for **all Panda Security endpoint security**
solutions.

All from a **single Web console** and with a
single agent.

Benefits of Aether Platform

GREATER MANAGEMENT AND MONITORING OPTIONS

Manage up to thousands of computers with granular settings, filters and customized reports. Monitor who is doing what and when with user activity control and role-based permissions.

MANAGE SECURITY FROM ANY DEVICE

Thanks to the **responsive design** of the management console, you can **use any mobile device** to manage network security, from anywhere and at any time.

EFFICIENT COMMUNICATION

Protect and **manage all computers in real time, even isolated systems** with no Internet access, thanks to the proxy feature included in the Aether agent.

Save bandwidth and speed up the deployment of the agent and security intelligence by designating a network computer as a cache/repository.

IN REAL TIME

React rapidly to any critical security incident. Push out settings, set exclusions or launch scans on hundreds or thousands of computers in just a few seconds.

DETAILED, CUSTOMIZED REPORTS

Reports with **detailed, customizable information** which give you complete flexibility to establish filters, run searches, set time periods, define target groups and determine the content to include. Reports can also be saved for later use.

DETAILS OF THE HARDWARE AND SOFTWARE ON EVERY COMPUTER

Save time and **optimize your company's security** with the hardware and software information included in all the products managed through Aether Platform.

Are you already using a Panda product to manage the security of your endpoints and servers?

Soon you will be able to migrate to Aether Platform seamlessly.

Your Panda Security dealer or sales advisor can give you the guidance you need.

Products managed with Aether Platform

The following products are **already integrated in** Aether, the new management platform from Panda Security:

- Endpoint Protection
- Endpoint Protection Plus
- Adaptive Defense
- Adaptive Defense 360

Purchase options

You simply need to **buy one or more of the products managed** with Aether Platform in order to enjoy all the benefits of the new Panda Security platform.
